Q1 Which organization are you nominating for this award? **Etna Borough**

Q2 In one-two sentences, please describe this organization's primary function(s).

The Borough of Etna has pledged and undertaken efforts to be a Sustainable Community. Through its ongoing commitment to implementing programs and developing strategies to foster environmental stewardship, community economic opportunity, health, and resilience, Etna has earned a Silver designation from Sustainable Pennsylvania.

Q3 Describe this project or initiative. In your description, you may wish to address questions like: What is the impact of this project or initiative in southwestern PA? Can the project be replicated by other organizations? If so, how, and by what type(s) of organizations / industries? Is this project – or a part of it – innovative in some way? You are not required to address all of the above questions, particularly any that do not apply to the project or initiative being nominated. Please keep your description to 750 words or less.

Etna has been nominated for its in-depth sustainability survey that was used to assess residents' knowledge about sustainability and how often they include the principles in their daily activities. The survey, modeled after action EA22 in the Master Playbook, was made available for all Etna residents in the quarterly newsletter and presented at an EcoDistricts community meeting. The survey results will be used to aid the planning stage of the EcoDistricts Certification to make the biggest positive impact in residents' lives.

Q4 If applicable, list the SP Challenge actions pertaining to the project(s) being nominated. If supporting documentation was submitted as part of an innovative action, simply note "IN1" below.

EA22

Q5 We welcome you to upload any supporting documents or images you would like to add for consideration. Consider images or documents that voters will find useful in making their selection.
